The wrong spray starts with a guess.

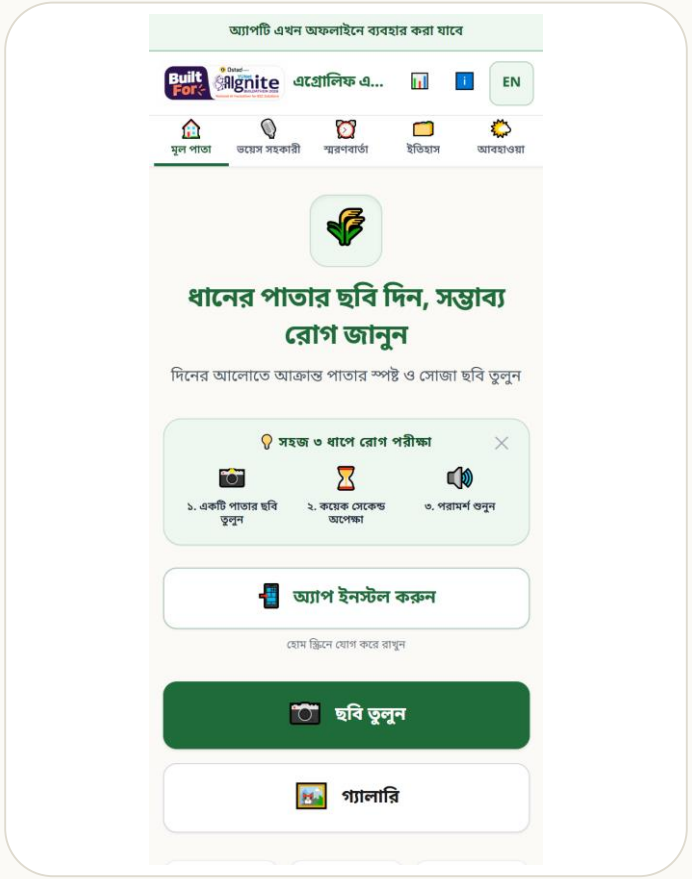

A farmer sees a spotted rice leaf.

The wrong advice means the wrong spray: wasted money, and a crop still at risk.

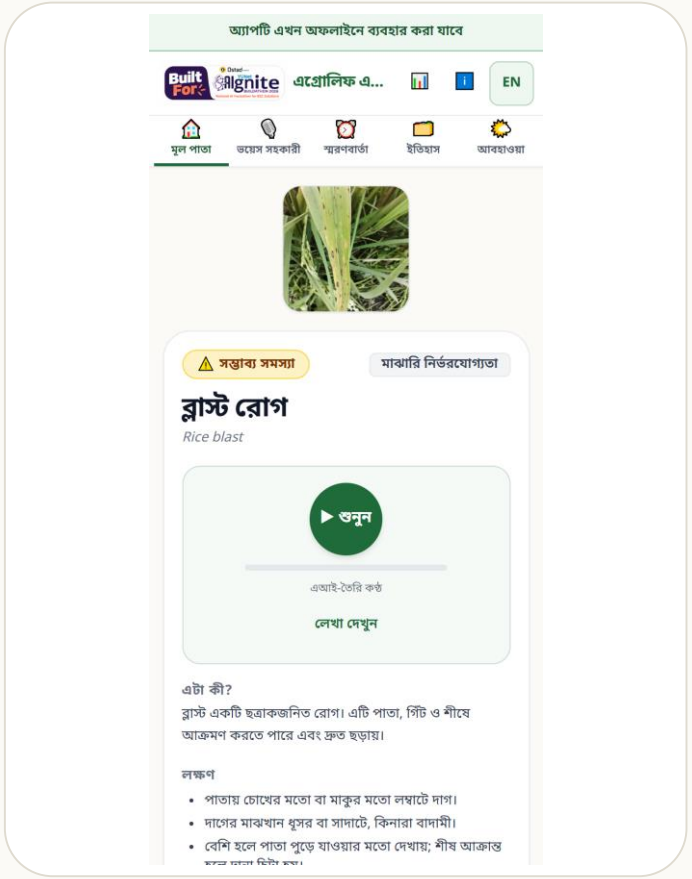

Many farmers have limited, costly mobile data.

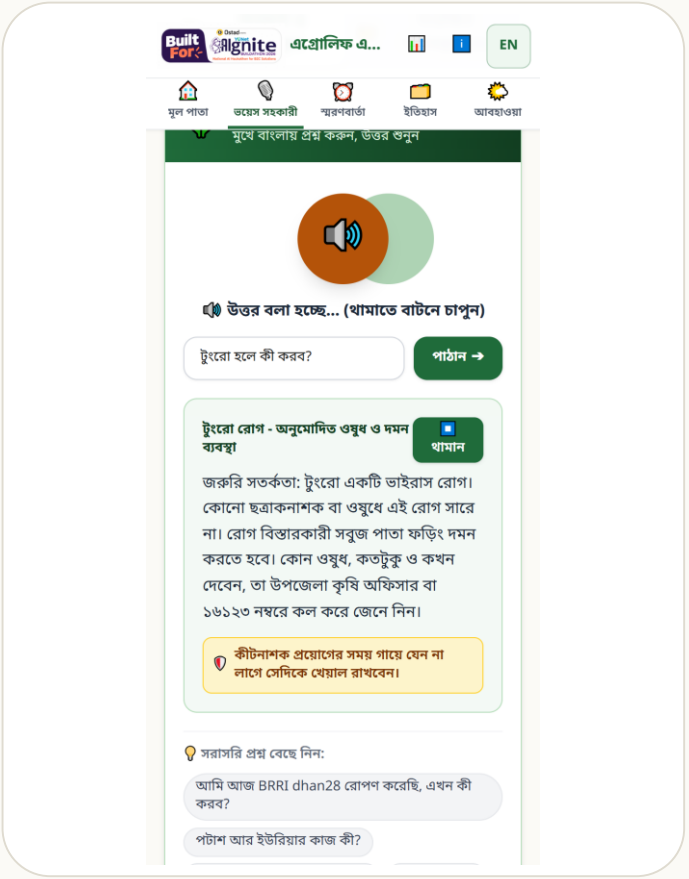

One photo. One honest answer.

Bangla result + audio

Ask by voice, hear Bengali

"Tells you what's wrong in Bangla, and tells you when it doesn't know."

On the phone. Not in the cloud.

Internal test macro-F1: **0.844** · answered: **0.886**

Unseen district (Sylhet) macro-F1: **0.570** · answered: **0.748**

Train: Bangladeshi field photos (Gazipur, Savar, Sirajganj-Pabna, Dhan-Shomadhan, DIU half A) + India/Taiwan + non-rice photos

Independent tests: Sylhet-Dhaka (never seen) · Aman 2025 · DIU half B

About me

[[Your name]]

[[University]]

[[Skills]]

Solo builder for AIgnite.

Research began in a team idea competition.

This web app is my own individual build.

Why this problem: [[one personal line]]

Useful, and honest about its limits.

- ✓ “Not sure” + 16123 — never a pesticide dose
- ✓ Bengali voice: 122 recorded answers
- ✓ Photo never leaves the phone
- ✓ Works offline after the first visit
